A	<div><p>The diagram shows a panel layout within a 15x11 grid. A large rectangle is defined by a thick gray border. Inside this rectangle, in the upper-left area, are several electrical components: a 3-phase circuit breaker, a 20A fuse, a terminal block, and two vertical modules. Four small circles are located at the corners of the panel area. The grid lines are labeled 1-15 horizontally and A-K vertically.</p></div>
